

Nestlé Policy on Quality, Food Safety, Occupational Safety, Health & Environmental Sustainability (NIMS)

Nestlé Pakistan Limited being a leading Nutrition, Health & Wellness Company keeps Customers and Consumers at the center of our organizational activities. At Nestlé, Quality, Food safety, Safety & Health at work and Environmental sustainability are integral part of Nestlé Corporate Business Principles. These principles guide our actions to deliver products and services that delight our consumers. We engage, motivate and empower everybody at Nestlé to take actions in order to protect our brands, employees, contractors & visitors. We are committed to communicate Quality, Food safety, Occupational safety & Health and Environment related performance to our stakeholders.

We make Nestlé Trusted, Safe, Recognized and Resourceful by following the below mentioned elements:

► Occupational Safety & Health:

We identify and reduce hazards to prevent injuries and damages to the health of our employees, contractors, visitors and business partners.

► Quality & Food Safety:

By fostering Nestlé Quality Culture, we ensure consistently safe & quality products which are trusted and preferred by our customers & consumers.

► Environmental Sustainability:

We identify environmental aspects to minimize their impacts which might arise from our activities, products and services.

► Compliance:

We guarantee compliance to all applicable local laws, regulations as well as internal policies, principles and standards with full transparency in all our activities, products and services.

► Everybody's Commitment:

We ensure 100% engagement across the value chain and at all levels of the organization to ensure compliance to Quality, Food safety; Regulatory, Occupational safety & Health and Environmental sustainability requirements.

► Continual Improvement:

We establish smart objectives for Quality, Food safety, Occupational safety & Health and Environmental sustainability which are reviewed periodically to ensure continual improvement targeting to achieve zero accident, defect, complaint and waste to deliver competitive advantage.

► Awareness and Responsibilities:

We are committed to provide Quality, Food safety, Occupational safety, Health & Environmental sustainability awareness to our employees, contractors, business partners and visitors to ensure that their responsibilities and accountabilities are communicated & well understood.
