Nestlé Pakistan donates 60,000 liters of water for flood relief efforts

LAHORE: Nestlé Pakistan has donated 60,000 litres of Nestlé Pure Life water to National Disaster Management Authority (NDMA) to facilitate their relief activities across flood-affected areas following the torrential rains during recent monsoon spells.

Sharing his thoughts, Waqar Ahmad, Head of Corporate Affairs and Sustainability, Nestlé in Pakistan and Afghanistan said, "Access to clean drinking water for those affected by flooding across Pakistan has become an issue. Nestlé has always been at the forefront in responding to the call of government of Pakistan for climatic and humanitarian disasters to help citizens in need."

Nestlé Pakistan and NDMA have worked closely to carry out relief work for the people and the communities affected by natural calamities, and believes it has an essential role to play during times of crisis.
